Houston, TX | 346-526-5816 | meetpatel03690@gmail.com | <https://www.linkedin.com/in/meet-patel-a090b41a3/> | <https://meetpatel3690.netlify.app/>

SUMMARY

Data Analyst with **2+ years of experience** and an **MS in Computer Information Systems** (Data Science specialization), turning raw, multi-source operational data into **clean models and decision-ready dashboards**. Currently integrating **7 source systems across 94+ franchise locations** at Nitu Group. Previously co-developed **Python forecasting models** (**22%** accuracy gain, **18%** fewer stock-outs) and built automated SQL and Python pipelines that cut manual reporting. Works in **Python, SQL, Power BI, Tableau, and PySpark/Databricks**.

PROFESSIONAL EXPERIENCE

Data Analyst II | NITU Group | Houston, TX

May 2026 – Present

- Consolidate operational data from **7 source systems** (QuBeyond, FocusPOS, NCR, Toast, 7shifts, SynergySuite, Zenoti) (landing via AWS S3 and GCP Storage) into **GCP BigQuery** for **94+ franchise locations** across TX, FL, and CO, checking quality, cleansing, and structuring raw data for downstream analysis.
- Maintain **60+ dbt staging and mart models** and built **16+ new models** for historical backloading of sales and payroll data, converting raw POS, labor, and inventory data into analytics-ready tables for consistent **cross-brand reporting**.
- Develop **Power BI semantic models** and interactive daily/weekly store-level dashboards across **five brands** (Church's Chicken, Shipley's Donuts, Nothing Bundt Cakes, Cost Cutters, Supercuts), giving leadership visibility into cross-store operational performance.
- Walk operations and leadership stakeholders through report findings in plain, non-technical terms and clarify metric definitions so the numbers can be acted on.

Data & Insights Analyst (Student Employee) | UHCL (OIAS) | Houston, TX

Jan 2025 – Aug 2025

- Analyzed **1,000+** international student records in **Power BI** to find enrollment patterns and admission trends, informing admissions strategy and resource planning.
- Built interactive dashboards tracking key admissions KPIs, replacing manual spreadsheet workflows and giving department leadership faster insights.
- Maintained the student database for accuracy, trained new team members on data workflows, and coordinated reporting between Admissions and other departments.

Data Analyst | Archi Farming Equipment | Remote, India

Jan 2023 – Dec 2023

- Co-developed **Python time-series forecasting models** that improved demand forecast accuracy by **22%** and reduced stock-outs by **18%**.
- Performed **EDA and feature engineering** on 3+ years of historical data, improving production planning efficiency by **15%**.
- Built automated **SQL and Python ETL pipelines**, cutting manual reporting effort by **40%** for 10+ stakeholders and reducing data inconsistencies by **30%**.
- Built **Power BI and Tableau** dashboards tracking inventory KPIs.

Data Analyst Intern | Atmiya Developers | Remote, India

Aug 2022 – Dec 2022

- Wrote and optimized **SQL queries on 1.5M+ records** to extract, filter, and aggregate data for product and sales team analysis.
- Built automated SQL and Python reporting scripts, reducing manual reporting effort by **30%**, and cleaned and standardized multi-source datasets.
- Validated accuracy across sources by cross-checking row counts and aggregate totals and flagging anomalies before delivery.

PROJECTS

Azure Databricks Spark Data Engineering Pipeline

[GitHub](#)

- Ingested Tokyo Olympics data with **Azure Data Factory** into **ADLS Gen2**, transformed it with **PySpark in Databricks**, and served it through **Azure Synapse** serverless SQL, with schema enforcement, normalization, and partitioning.

AWS Serverless Event-Driven ETL Pipeline

[GitHub](#)

- Built an event-driven pipeline with **AWS Lambda** (triggered on S3 uploads) that converts nested JSON to **Parquet**, cataloged with **Glue** and queryable in **Athena**; configured IAM roles, S3 event notifications, and Glue crawlers.

EDUCATION

University of Houston–Clear Lake | MS, Computer Information Systems | GPA: 3.65

Jan 2024 – Dec 2025

Data Warehouse & Business Intelligence, Database Design & Data Mining, Big Data, Data Visualization

Charutar Vidya Mandal University | Bachelor of Computer Applications | GPA: 9.98/10 (4.0 US)

May 2020 – May 2023

Database Management Systems, Data Structures & Algorithms, Statistics, Python, Artificial Intelligence

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Statsmodels, Scikit-learn), **SQL** (Advanced), PySpark, DAX

BI & Visualization: Power BI, Tableau, Looker Studio, Excel (Advanced), Matplotlib, Seaborn

Big Data & Cloud: Databricks, PySpark, dbt, GCP (BigQuery, Cloud Storage, Cloud Run functions), Azure (Data Factory, ADLS Gen2, Synapse), AWS (Lambda, Glue, Athena, S3)

Databases: BigQuery, PostgreSQL, MySQL, SQLAlchemy
